Good Practice Guide for Instructors, Coaches and Volunteers

CMYC Instructors, Coaches and Volunteers should follow these good practice guidelines to protect everyone – children, volunteers and staff.

Anyone under the age of 18 should be considered as a child. Any vulnerable person should be given the same protection as that given to a child.

You should:

- Avoid spending any significant time working with children in isolation
- Do not take children alone in a car, however short the journey
- Do not take children to your home as part of your organisation's activity
- Where any of these are unavoidable, ensure that they only occur with the full knowledge and consent of someone in charge of the organisation or the child's parents
- Design training programmes that are within the ability of the individual child.
- If a child is having difficulty with a wetsuit or buoyancy aid, ask them to ask a friend to help if at all possible
- If you do have to help a child, make sure you are in full view of others, preferably another adult
- Restrict communications with young people via mobile phone, e-mail or social media to group communications about organisational matters. If it's essential to send an individual message, copy it to the child's parent or carer.

You should never:

- engage in rough, physical or sexually provocative games
- allow or engage in inappropriate touching of any form
- engage in any sexual relationship with a child
- allow children to use inappropriate language unchallenged, or use such language yourself when with children
- make sexually suggestive comments to a child, even in fun
- fail to respond to an allegation made by a child; always act
- do things of a personal nature that children can do for themselves.

It may sometimes be necessary to do things of a personal nature for children, particularly if they are very young or disabled. These tasks should only be carried out with the full understanding and consent of both the child (where possible) and their parents/carers. In an emergency situation which requires this type of help, parents/carers should be informed as soon as possible. In such situations it is important to ensure that any adult present is sensitive to the child and undertakes personal care tasks with the utmost discretion.
